The SACOMA World Entrepreneurship Summit is a forum for entrepreneurs, investors and business support agencies working in the public and private sector to share practical ideas on how to stimulate the ideals and benefits of entrepreneurship as the driving force of economic growth and development in Africa and across the world.

Entrepreneurs are the world's agents of change. They are ordinary people who take personal risks to be creative, to innovate and to make a difference, either economically, socially or environmentally. SACOMA WES brings together more than 500 thought and business leaders, academicians, entrepreneurs and policy makers from more than 40 countries around the world.

The central theme of this summit is entrepreneurship and its role in promoting business competitiveness in the fast and ever changing global economy. The Summit is a Forum and a wake-up call and the culmination of a partnering process in which entrepreneurs and investors will create genuine business opportunities and enduring partnerships.

The event will be inaugurated by
 His Excellency, Hon. Uhuru Kenyatta
 Deputy Prime Minister
 Ministry of Trade
 and
 Adam Wood
 British High Commissioner
